Construction

Product Material 1	Polypropylene
--------------------	---------------

Description

Fischer Red 12L Stor Pak is a stackable storage bin made from durable polypropylene designed for efficient organisation of work spaces and trade environments. The bright red colour enhances visibility and aids in quick identification, while its modular design maximises available storage space. The product is intended for indoor use, providing a practical solution for maintaining tidy and accessible storage in busy work areas, ensuring that users can easily manage their inventory and supplies.

Features

- Stackable design optimises space in busy work areas
- Durable polypropylene construction ensures long-lasting performance
- Compact 12L capacity suits a variety of storage needs
- Rigid design supports secure and efficient stacking
- Bright red colour aids quick visual identification
- Smooth surfaces facilitate easy cleaning and maintenance
- Engineered for reliable use in controlled indoor settings
- Efficient structure streamlines workflow and storage organisation
