Description

Fischer Yellow 12L Stor Pak provides a practical solution for organising tools and components in workspaces. Constructed from durable polypropylene, these stackable storage bins help trade professionals manage their inventory efficiently. Their yellow design enhances visibility and simplifies item retrieval, while the stackable configuration supports optimal use of available space. The product delivers functional storage performance that contributes to systematic work processes and improved operational efficiency.

Features

- Durable polypropylene construction for long-lasting performance
- Stackable design enhances space utilisation in confined areas
- Colour-coded yellow aids quick visual identification
- 12-litre capacity offers ample storage for essential items
- Precisely engineered stacking edges ensure reliable load security
- Lightweight design facilitates effortless handling and repositioning
- Sleek form factor contributes to organised inner environments
- Robust construction withstands repeated everyday use
