Description

Fischer Clear 24L Stor Pak is a robust and clear stackable storage solution made of polypropylene. Designed for efficient space management, its durable design facilitates effective organisation and ease of access in professional settings. Tailoured for indoor use, the bins are ideal for storing tools, parts and components, offering a practical solution for trade professionals seeking reliable and visible storage to support routine operational efficiency.

Features

- Clear design offers instant visual access to contents
- Durable polypropylene construction withstands regular usage
- Stackable form saves floor space and enhances organisation
- Lightweight bins support efficient material handling
- Modular design simplifies custom configuration and storage layout
- High clarity enables swift item location during inventory review
- Robust construction delivers long lasting indoor performance
- Designed for practical applications and efficient stacking storage
