Description

Fischer Green 24L Stor Pak is a collection of stackable storage bins constructed from polypropylene with a practical green finish. Designed for indoor use, these bins offer efficient space management and secure stacking capabilities, facilitating organised storage of tools and materials. They are engineered to support clear labelling and easy access, providing dependable functionality that meets the operational needs of trade professionals in varied work settings.

Features

- Sturdy polypropylene construction offers long-lasting storage
- Stackable design maximises space efficiency
- 24 litre capacity accommodates diverse storage needs
- Lightweight design simplifies relocation and handling
- Reusable material contributes to cost-effective storage
- Robust build minimises wear during repeated stacking
- Uncomplicated design supports efficient organisation
- Trusted FISCHER quality confirms reliable storage performance
