Description

Fischer Red 24L Stor Pak is a stackable storage bin made of polypropylene designed for indoor use by trade professionals. Its vibrant red colour enhances visibility while allowing for efficient organisation of parts and tools. The product's robust construction facilitates secure stacking and systematic storage, supporting quick access and effective space management. It provides a practical solution for maintaining well-organised work areas and simplifying equipment handling.

Features

- Durable polypropylene construction for long-lasting storage
- Stackable design saves space and enhances organisation
- Bright red colour aids visual identification
- 24 litre capacity delivers ample storage space
- Precision interlocking structure supports secure stacking
- Easy content access simplifies everyday inventory management
- Lightweight design improves handling during collection and organising
- FISCHER quality ensures reliable indoor storage solution
