Description

Fischer Clear Compartment Boxes (12 Compartment) provide twelve distinct compartments designed to organise components systematically. Crafted from durable co-polymer, they offer clear visibility which aids in quick identification and efficient retrieval of parts. Suitable for indoor applications, these boxes serve trade professionals who require an orderly solution for small components and tools. Their robust construction and functional design help maintain an uncluttered workspace and support effective routine operations.

Features

- Transparent design for quick component visual identification
- Robust co-polymer construction offers dependable durability
- Twelve compartments enable organised component separation
- Ideal for indoor controlled environment storage
- Precision moulded design ensures secure part arrangement
- Simplified installation aids quick and clear workspace organisation
- Compact design saves space without unnecessary complexity
- FISCHER quality ensures dependable performance and lasting reliability
