Description

Fischer Clear Compartment Boxes (20 Compartment) is designed for precise storage and organisation applications, utilising co-polymer material for robust performance. The clear design enables easy content identification and contributes to efficient workspace management. Specially engineered for trade professionals, it offers technical advantages for sorting and managing small components, ensuring a reliable and systematic approach in office or workshop settings while providing a dependable solution for detailed organisational needs.

Features

- Clear co-polymer construction for rapid content identification
- Contains 20 compartments for organised component separation
- Durable material engineered for long-lasting indoor performance
- Co-polymer offers structural stability with minimal maintenance
- Designed for efficient compartmental storage and easy access
- Transparent finish facilitates quick visual inspection during operations
- Robust build supports repeated use and reliable containment
- Precision slot design ensures secure organisation of smaller parts
