Description

Fischer Charcoal Med Lid Viro Tub is a stackable storage bin constructed from black polypropylene designed for careful organisation of tools and materials. It is intended for indoor use, offering a practical method to maintain order in busy workspaces. Its stackable nature reduces desktop clutter and improves space management for industrial and trade professionals. The product focuses on robust construction and ease of integration into existing storage systems.

Features

- Durable polypropylene construction for reliable long-lasting performance
- Stackable design allows modular, space-efficient storage
- Black finish lends a professional and sleek appearance
- Secure interlocking system supports stable stacking
- Smooth surfaces facilitate cleaning and routine maintenance
- Compact design maximises available indoor storage capacity
- Integrated lid system enhances containment and security
- Robust design withstands continuous use for reliable operation
