

Product Code: FASTY121

Specifications

Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	No

Appearance

Product Colour	White
----------------	-------

Construction

Product Material 1	Steel Mechanism
Product Material 2	Polyester Webbing

Description

Fasty 1M x 25mm Tie Down Straps 400kg are designed for securely transporting loads in commercial applications. Constructed with a steel mechanism and polyester webbing, these straps provide reliable tension and consistent performance. They serve trade professionals by ensuring stable load management during transit and storage. Their robust design and practical construction support efficient transport practices through precise load restraint and effective durability.

Features

- Constructed with durable steel mechanism for secure adjustment
- High-tensile polyester webbing supports robust load retention
- White finish offers a clean, unobtrusive appearance
- Versatile use suited for outdoor and indoor applications
- Engineered for 400kg tie down capacity
- Precision-crafted components ensure dependable performance
- Streamlined design simplifies secure load restraint tasks
- Simple, reliable solution for securing loads and equipment
