

Description

Fasty 1.5M x 25mm Tie Down Straps 400kg are designed for secure load management, utilising a steel mechanism combined with durable polyester webbing. They offer reliable tie down and strapping solutions for applications involving the transport and storage of goods. Their effective design contributes to operational efficiency. The product is developed for both indoor and outdoor use, and its robust construction provides practical benefits for industrial and trade professionals.

Features

- Durable steel mechanism ensures reliable tension control
- Reinforced polyester webbing provides secure load retention
- Robust construction performs in diverse operational conditions
- High load capacity up to 400kg for secure applications
- Easy to tension and release for precise load management
- Compact tie down design allows efficient storage and deployment
- Product colour yellow aids in quick identification during operation
- Engineered for longevity with robust materials and precise fabrication

Product Code: FASTY122

Specifications

Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	No

Appearance

Product Colour	Yellow
----------------	--------

Construction

Product Material 1	Steel Mechanism
Product Material 2	Polyester Webbing

Weights

Product Weight (grams)	53
Load Capacity kg	200.0
Lashing Capacity (kg)	200
Break Strength (kg)	400

Dimensions

Product Height (mm)	20
Product Width (mm)	28
Product Length (mm)	1500
Strap Width (mm)	25
