

Description

Carinya 190 x 75mm Zinc Plated Builders Angle Bracket is a precision engineered steel bracket designed for secure connections in building projects. Its hot dipped galvanised finish ensures lasting durability with minimal maintenance. The bracket offers a robust solution for accurate fixings and supports the assembly of structural components, serving trades professionals who prioritise functionality and reliability. Its measured dimensions promote precision during installation, enhancing the overall stability of construction works.

Features

- Hot dipped galvanised finish protects steel from rust
- High-quality steel offers extended service life
- Robust angle design supports secure structural connections
- Precise manufacturing delivers consistent component dimensions
- Simple design facilitates convenient installation
- Adaptable design suits various construction applications
- Compact design fits easily in tight build spaces
- Engineered for robust performance under demanding service loads
