

Description

SIT Steel Crimped Wire Wheel 42mm x M6 is a well-constructed crimped wheel brush featuring a silver and red finish with steel wire construction. Designed for efficient cleaning and surface preparation, it operates reliably at speeds up to 18000 rpm. Its dual usability for indoor and outdoor tasks benefits trade professionals seeking consistent performance in routine maintenance and repair operations, with the crimped wire design providing durability and effective handling in technical applications.

Features

- Constructed from durable steel material for heavy-duty brushing
- Crimped wire design ensures reliable performance at high RPM
- Suitable for both indoor and outdoor applications
- Engineered for fast material removal in operational tasks
- High rotational speed ratings up to 18000 revolutions per minute
- Features robust 42mm brush wheel with M6 fixing
- Distinct silver and red finish for clear visual identification
- Simple construction ensures minimal maintenance during prolonged usage

Product Code: GG42
