Description

Colson 75mm Twin Wheel Swivel Brake H6 Series Castor 75kg is a solution featuring twin urethane wheels mounted on a single raceway with precision carbon steel bearings. The housing is crafted from plastic and integrates a threaded stem fitting with a total brake mechanism for reliable performance. It is suited to applications where steady movement and reliable braking are needed by professionals, offering practicality and technical benefits with a clean grey, silver and white finish.

Features

- 75kg load capacity twin wheel swivel design for smooth movement
- Durable urethane wheels feature nylon cores and precision bearings
- Plastic housing and carbon steel ensure reliable structural integrity
- Threaded stem fitting delivers secure, straightforward castor installation
- Total brake system enables rapid castor immobilisation
- Single raceway design delivers smooth, unobstructed wheel rotation
- Engineered for precise motion and stable directional control
- Suitable for both outdoor and indoor operational settings
