

Description

Carinya 210 x 130mm Galvanised Angle Bracket - 210 x 130mm is a precise support component engineered for secure connections in a range of construction and repair applications. Manufactured from galvanised steel with a hot dipped galvanised finish, it offers reliable durability and corrosion resistance. Its standard dimensions allow for straightforward installation and consistent performance, making it a practical solution for professionals in building trades seeking dependable technical efficiency.

Features

- Constructed from galvanised steel for superior strength
- Hot dipped galvanised finish enhances durability
- Precise dimensions 210 x 130mm offer exact accuracy
- Engineered to provide sturdy structural support
- Simple installation design saving time on setup
- Corrosion resistant finish ensures lengthy operational life
- Engineered design supports precise alignment and secure fixing
- Compact bracket design eases integration into various assemblies
