

Product Code: HDAG2006

Description

Carinya 200 x 200mm Galvanised Angle Bracket is crafted from galvanised steel with a hot dipped galvanised finish that offers durability and corrosion resistance. It is designed for secure fastening and architectural support in construction and mechanical applications, providing reliable stability and precision in assemblies. This product is engineered for effective performance, addressing the practical needs of trade professionals in various fabrication and assembly projects.

Features

- Manufactured from hot dipped galvanised steel for corrosion resistance
- Precision produced 200 x 200mm angle bracket for secure fixing
- Clean galvanised finish maintains appearance during extended use
- Designed for straightforward installation and reliable alignment
- Robust angle bracket design supports structural reinforcement
- Engineered to deliver robust and lasting support
- Angle bracket ensures balanced load distribution
- Hot dipped galvanising offers enduring protection against wear
