

Description

Carinya 280 x 75mm Galvanised Angle Bracket is engineered for reliable structural support in technical installations. Crafted from galvanised steel with a hot dipped galvanised finish, it provides secure mounting and precise alignment for equipment and fixtures. Its robust design facilitates efficient assembly and simplifies maintenance, offering practical advantages for trade professionals seeking dependable, long-lasting connections.

Features

- Robust galvanised steel for enhanced structural support
- Hot dipped coating offers reliable rust resistance
- Precision engineered 280 x 75mm dimensions for accurate fit
- Simple design facilitates straightforward installation and assembly
- Reliable performance provides secure angle support
- Engineered for consistent strength during heavy loading
- Compatible with a range of mounting and framing applications
- Carinya quality ensures dependable performance over prolonged periods
