

**Product Code: HDAG3006**

## Description

Carinya 300 x 300mm Galvanised Angle Bracket is designed for precise support and reinforcement in various fixed applications. Constructed from galvanised steel with a hot dipped galvanised finish, the bracket offers durability and corrosion resistance. Its robust form facilitates efficient integration in metal frameworks and trade contexts. It is engineered to ensure stability and ease of installation, providing practical benefits for aligning and securing architectural or structural assemblies.

## Features

- Constructed from galvanised steel for robust performance
- Hot dipped galvanisation enhances rust resistance
- Precision engineered for secure mounting and stability
- Designed with a practical 300 x 300 mm size
- Offers a simple solution for bracket installation
- Engineered for efficient performance in diverse applications
- Precision cast design meets practical installation requirements
- Carinya quality ensures lasting reliability without compromise
