

Product Code: HDAG3806

Description

Carinya 380 x 380mm Galvanised Angle Bracket is a sturdy component crafted from galvanised steel with a hot dipped galvanised finish for enhanced corrosion resistance. It offers precise alignment and robust support for practical applications across various construction and installation projects. Designed for industrial and trade professionals, this angle bracket delivers reliable structural strength and consistent performance in settings where secure connections and durability are essential.

Features

- Hot dipped galvanised finish for extended corrosion resistance
- Durable galvanised steel construction ensures robust performance
- Precision engineered for secure angle bracket connections
- Specially sized 380 x 380 mm for optimal joint stability
- Robust design improves installation speed and reliability
- Engineered for strong support in structural assemblies
- Carinya quality assurance ensures consistent performance
- Simple design minimises installation and maintenance demands
