Description

Easyroll 125mm Nylon I3 Series Castors 250kg 1PC. Designed for transporting and manoeuvring heavy loads, the castor integrates high-quality nylon components with a robust steel housing and a reliable ball bearing in a single raceway design. The plate swivel brake provides a total lock for secure operation, ensuring controlled movement of equipment in commercial applications. Its durable construction and precise design offer consistent performance and ease of use for trade professionals.

Features

- Durable white finish for a clean, professional appearance
- Nylon wheel core and wheel ensure low-friction movement
- Steel housing and ball bearing provide robust structural integrity
- Single raceway design distributes load uniformly
- Total lock brake and swivel plate enhance operational control
- Engineered for 250kg load capacity and consistent performance
- Adaptable in both indoor and outdoor applications
- Lightweight construction simplifies handling and installation
