Bearing Material	Steel

Description

Colson 125mm Cast Iron Swivel Plate J3 Series Castor 410kg is a robust caster unit constructed with a cast iron wheel and steel housing featuring a double raceway roller bearing system. It is available in a black and silver finish and is engineered for efficient manoeuvring in professional settings. Its solid design and technical build support reliable load handling, offering practical benefits to industrial and trade professionals in various applications.

Features

- Durable cast iron wheel ensures reliable movement
- Steel housing provides robust, long-lasting construction
- Smooth swivel action with a roller bearing system
- Double raceway design minimises friction during operation
- Black and silver finish gives a professional appearance
- 125mm wheel supports loads up to 410kg daily
- Engineered steel components ensure reliable operation
- Precise swivel plate design enhances ease of manoeuvring
