

Description

COLSON J3 Series Castors offer robust mobility with a steel housing designed for reliable load movement in demanding applications. The castors incorporate a full plate design and a double raceway that ensures smooth rotation and enhanced stability, supporting trade professionals in achieving efficient material handling. Their practical construction and technical design provide consistent performance and ease of manoeuvrability in various work scenarios.

Features

- Durable steel housing ensures robust construction and strength
- True plate design maximises load distribution with precision
- Double raceway reduces friction and promotes smooth manoeuvring
- Engineered for precise movement and operational ease
- Constructed with high quality materials for extended service
- Robust housing withstands dynamic loads and impacts
- Simple integration design supports versatile system configurations
- Precision castor construction offers controlled motion and stability

Product Code: J33AZ-MR6R125

Specifications

Outdoor Use	Yes
Indoor Use	Yes
Raceway Type	Double
Attachments	Fixed Plate

Construction

Housing Material	Steel
------------------	-------

Weights

Product Weight (grams)	1706.7
Product Weight (kg)	1.7067

Dimensions

Product Length mm	135
Product Width mm	110
Product Height mm	164
