

Bansbach Gas Strut 110N - C5 Clevis, M10 Rod

Description

A light-duty Bansbach gas strut rated at 110N, roughly 11 kg of push, so it's the one for smaller lids, hatches, covers and access panels rather than a heavy bonnet. It runs at a normal push-out speed and finishes in a C5 clevis end that pins straight to a flat bracket. If the clevis isn't your mount, the M10 x 1 piston-rod thread lets you fit your own eyelet or ball stud.

Features

- Bansbach engineering gas strut, 110N extension force (about 11 kg)
- Normal push-out speed
- C5 clevis rod-end, pins to a flat bracket
- M10 x 1 x 18 piston-rod thread for alternative fittings
- Suits smaller lids, hatches, covers and access panels

Product Code: K0C5K-3-150-466-001

Construction

Extension Force	110N
Push-Out Speed/Damping	Normal
Connecting Part Cylinder	Clevis C5
Thread Piston Rod	M10 x 1 x 18
