

Description

Precision Brand Square Key Steel 20x20mm Metric Steel is a key component produced from C1020 to C1045 steel with a gold finish, designed for precise assembly applications in controlled settings. It integrates hardware and utilises metric measurements to ensure consistent dimensions and operational reliability. Trade and engineering professionals benefit from its robust construction and technical precision, which support secure connections and effective component integration in various indoor configurations.

Features

- Precision engineered for consistent performance
- Gold finish improves component visibility
- Included hardware simplifies mounting and alignment
- Manufactured with C1020 to C1045 steel for durability
- Metric measurements ensure precise compatibility
- Square design offers reliable, secure engagement
- Engineered for consistent indoor performance
- Robust construction enhances long-term functionality

Product Code: KS20X20MM

Specifications

Outdoor Use	No
Indoor Use	Yes

Appearance

Product Colour	Gold
----------------	------

Construction

Product Material 1	C1020 to C1045 Steel
--------------------	----------------------

Weights

Product Weight (grams)	970
Product Weight (kg)	0.97

Dimensions

Product Height (mm)	20
Product Width (mm)	20
Product Length (mm)	300

Specifications

Unit of Measure	Metric
