

Description

Carinya 20 x 20 x 1mm Galvanised Make-A-Bracket provides a reliable steel bracket designed for various structural assembly applications. Precisely engineered with galvanised steel, it ensures secure mounting and durability in demanding trade projects. The bracket supports efficient installation and stable performance, making it a valued component for professionals in construction and fabrication. Its robust design is aimed at enhancing reliability and ease of use in fixed installations.

Features

- Galvanised steel ensures long-lasting corrosion resistance
- Precision engineered for secure bracket mounting
- Compact design fits standard applications easily
- 20 x 20 x 1mm specifications provide reliable installation
- Engineered for practical support in assorted mounting tasks
- Robust construction withstands operational stresses
- Simple design enables versatile repeatable installations
- Carinya quality ensures dependable performance for long service life
