

Product Code: MA0012

Description

Carinya 25 x 25 x 20 x 2mm Galvanised Angle Make-A-Bracket is a precision-engineered angle bracket constructed from galvanised steel with a zinc-plated finish designed for secure and accurate mounting. Its dimensions facilitate consistent assembly, providing stable support during component alignment and installation tasks. The bracket's robust build and streamlined design benefit trade professionals seeking dependable and efficient performance. It offers reliable functionality for various applications and contributes positively to systematic project outcomes.

Features

- Carinya branded design made from galvanised steel
- Zinc plated finish provides corrosion protection
- Precision engineered dimensions ensure accurate spacing and fit
- Versatile design supports secure bracket installation
- Compact dimensions offer flexibility in structural applications
- Engineered with a focus on robust mechanical performance
- Uniform bracket profile supports accurate component alignment
- Galvanised angle design withstands routine handling and use
