

Product Code: MA0021

Description

Carinya 40 x 60 x 50 x 2mm Galvanised Angle Make-A-Bracket is constructed from galvanised steel with a zinc-plated finish to provide durability. It is designed for practical assembly and reinforcement in builder, maintenance and trade applications. Its precise dimensions facilitate accurate installation and integration into pre-existing frameworks, while the robust construction optimises weight distribution and load-bearing capacity, offering a reliable solution for professionals requiring steady support and effective performance in their projects.

Features

- Made from durable galvanised steel
- Zinc plated for reliable corrosion resistance
- Precise angles ensure secure bracket installation
- Compact design fits in tight construction spaces
- Simple installation saves time on projects
- Precise dimensions enhance accuracy in structural applications
- Manufactured by Carinya for trusted performance
- Robust bracket supports varied load requirements
