

Product Code: MA0031

Description

Carinya 60 x 80 x 75 x 2mm Galvanised Angle Make-A-Bracket is engineered from galvanised steel with a zinc-plated finish. The design provides reliable support for framing and mounting tasks in various applications, ensuring secure connectivity and robust construction. It is intended for industrial and trade professionals requiring dependable bracket solutions for engineering projects and structural modifications, offering precise dimensions for optimal compatibility and long-lasting performance.

Features

- Precision engineered for secure bracket connections using galvanised steel
- Zinc-plated finish protects against corrosion and harsh conditions
- Robust build ensures reliable mounting and secure fixing
- Consistent dimensions support accurate component positioning
- 60x80x75x2mm design supports uniform assembly and alignment
- High-quality galvanised steel construction offers lasting durability
- Precision cut edges enable neat installation and tight fit
- Easy integration with standard mounting systems simplifies installation
