

Description

Carinya 20 x 20 x 600 x 1mm Galvanised Angle Make-A-Bracket is a precision-engineered bracket designed to provide secure and reliable support in technical assemblies. Constructed from galvanised steel with a zinc-plated finish, it ensures durability and accurate alignment for various joining applications. Its measured design benefits trade professionals by facilitating practical installations and consistent performance during assembly processes.

Features

- Durable galvanised steel ensures long lasting bracket performance
- Zinc plated finish provides corrosion protection
- Exact 20x20x600x1mm dimensions ensure consistent installation
- Engineered for strength with robust angle design
- Galvanised steel provides rigidity and high load capacity
- Zinc plated finish enhances longevity and visual appeal
- Precision angle brackets support secure fixed installations
- Trusted Carinya quality guarantees refined bracket engineering
