

Carinya 200 x 200 x 1mm Galvanised Flat Plate Make-A- Bracket

Description

Carinya 200 x 200 x 1mm Galvanised Flat Plate Make-A-Bracket is a precision-engineered bracket designed for mounting and support tasks in professional applications. Fabricated from galvanised steel and finished with a zinc-plated coating, it offers durability and accurate performance. Its clear design and technical efficiency provide practical support for industrial and trade professionals, ensuring consistent reliability and ease of installation in various technical projects.

Features

- 200 x 200 mm dimensions for versatile bracket configurations
- 1mm thickness delivers robust structural integrity
- Galvanised steel material ensures corrosion resistance
- Zinc-plated finish offers enhanced durability
- Compatible with custom bracket fabrication setups
- Simple design suits various construction joining applications
- Easy integration into existing structural systems
- Carinya brand provides reliable and proven performance
