

Description

Easyroll Standard Pallet Truck 2500kg is a reliable pallet truck engineered for use in warehouses, supermarkets, retail outlets, manufacturing facilities, shipping and receiving bays. It features a robust powder coated steel frame, yellow and red design for high visibility and polyurethane wheels that provide steady movement. The tandem load rollers configuration and hand release lowering control allow for smooth handling and precise load manoeuvring, delivering practical value to trade professionals.

Features

- 2500kg load capacity supports robust heavy equipment handling
- Tandem load rollers enhance stability during transport and manoeuvring
- Hand release lowering ensures controlled adjustments of load height
- Polyurethane wheels offer durable rolling performance
- Powder coated steel frame provides resistance against wear and corrosion
- Suitable for warehouse, retail, shipping and receiving applications
- Robust construction offers long-term durability and reliable performance
- Easyroll design incorporates essential hardware for immediate set up

Product Code: PT2500

Specifications

Hardware Included	Yes
Indoor Use	Yes
Outdoor Use	Yes
Assembly Required	Yes
Load Rollers Configuration	Tandem
Lowering Control	Hand Release Lowering

Construction

Wheel Material	Polyurethane
Frame Material	Steel
Frame Coating	Powder Coated Steel

Dimensions

Product Height (mm)	1250
Product Width (mm)	550
Tire Dimensions (mm)	1100x160
Lifting Height (mm)	85-200
Load Rollers Dimensions (mm)	80x70
Rear Steering Wheel Dimensions (mm)	180x50
Steering Handle Dimensions (mm)	1250

Weights

Product Weight (kg)	60
Load Capacity kg	2500.0
