Carinya 80x20mm Zinc Plated Reinforcing Angle Bracket

BRACKET DIMENSIONS

Description

Carinya 80 x 20mm Zinc Plated Reinforcing Angle Bracket is manufactured in steel with a zinc plated finish to ensure durability and corrosion resistance. It provides effective support for various assembly and reinforcement applications. Its precise design offers consistent performance in trade operations, contributing stability and strength to frames and structures. This angle bracket is designed to deliver practical benefits for professionals working on construction and maintenance projects.

Features

- Constructed from durable steel for enhanced load distribution
- Zinc plated finish provides corrosion resistance over extended periods
- Reinforcing design delivers secure mounting for versatile applications
- Precision dimensions support reliable repeatable installation performance
- Engineered for efficient repair and reinforcement tasks
- Designed for secure connections and reliable support
- Robust profile offers long lasting strength and stability
- Easy integration with standard mounting hardware

Product Code: RAB080

Dimensions

Product Length (mm)	80
Product Width (mm)	80
Product Height (mm)	20
Product Thickness (mm)	2
Diameter of Fixing Holes (mm)	4.7

Appearance

Product Colour	Zinc Plated

Construction

Product Material 1	Steel

Specifications

Outdoor Use	No
Indoor Use	Yes
Hardware Included	No
