Carinya 76.6 16.3mm Zinc Plated Reinforcing Mending Plate

Description

Carinya 76.6 16.3mm Zinc Plated Reinforcing Mending Plate is a steel mending plate bracket designed for secure and efficient repairs in construction and maintenance projects. The zinc plating enhances durability and offers corrosion resistance, ensuring dependable performance during routine updates and repairs. Trade professionals appreciate its precision dimensions and robust build, which support effective structural reinforcement and reliable outcomes in building and renovation applications.

Features

- Zinc plated steel construction offers robust and durable performance
- Engineered for reliable load transfer in structural repairs
- Precision design ensures secure alignment during bracket installation
- Simplified application supports efficient mending plate installation
- Suitable for reinforcing structural joints with dependable strength
- Precision engineered for a neat and professional finish
- Solid steel bracket ensures longevity in demanding repair projects
- Robust construction provides dependable stability for reinforcement

Product Code: RMF076

Dimensions

Product Length (mm)	76.7
Product Width (mm)	16.5
Product Height (mm)	2.5
Product Thickness (mm)	2.5
Diameter of Fixing Holes (mm)	5

Appearance

Product Colour	Zinc Plated

Construction

Product Material 1	Steel

Specifications

Outdoor Use	No
Indoor Use	Yes
Hardware Included	No
