Carinya 100 x 50mm Hot Dipped Galvanised Reinforcing Bracket

BRACKET DIMENSIONS

Description

Carinya 100 x 50mm Hot Dipped Galvanised Reinforcing Bracket is designed to provide reliable structural support and secure reinforcements in various construction applications. Fabricated entirely from durable steel with a hot dipped galvanised finish, it offers precise angular strength and long-lasting corrosion resistance. This bracket delivers dependable performance by ensuring robust integration in reinforcement frameworks for building and repair projects.

Features

- Hot dipped galvanised steel ensures robust and durable performance
- 100 x 50mm angle bracket for reliable reinforcement
- Precision engineered for accurate alignment and secure support
- Suitable for structural connections and framing applications
- High-quality steel construction ensures longevity and stability
- Corrosion resistant finish extends bracket service life
- Engineered to meet rigorous construction demands
- Built for straightforward fast installation on structural components

Product Code: SAG17

Dimensions

Product Length (mm)	101
Product Width (mm)	50
Product Height (mm)	48
Product Thickness (mm)	4.5
Diameter of Fixing Holes (mm)	12.2

Weights

Load Capacity (kg)	500.0

Appearance

Product Colour	Hot Dipped Galvanised

Construction

Product Material 1	Steel

Specifications

Outdoor Use	No
Indoor Use	Yes
Hardware Included	No
