

Description

Carinya 400 x 350mm Galvanised Heavy Duty Twisted Stay Bracket is constructed from galvanised steel with a hot dipped galvanised finish, providing enhanced durability and structural integrity for support systems. Designed to offer reliable performance in installation and maintenance tasks, it ensures stable and secure fixings for a range of applications. Engineers and trade professionals benefit from its precision design and robust construction.

Features

- Robust twisted stay design provides durable load support
- Dimensions of 400 x 350mm ensure precise fit
- Constructed from galvanised steel with heavy duty build
- Hot dipped galvanisation enhances corrosion resistance
- Twisted design aids load distribution and stability
- Engineered for secure installation in various applications
- Precision manufacturing ensures reliable performance
- Tested load tolerance supports heavy duty applications
