

Description

Precision Brand Steel Shim in a Box 6"x100"x0.006" 1008 to 1010 Steel is a shim roll packaged in a convenient box designed for precise alignment and measurement tasks. Constructed from 1008 to 1010 full hard steel, it ensures stable shim thickness for accurate calibrations in mechanical applications. This reliable tool benefits trade professionals by supporting meticulous adjustments and enhancing the consistency of precision work.

Features

- Constructed from 1008 to 1010 full hard steel
- Rolled shims stored in a secure box
- Accurate dimensions ensure reliable imperial unit measurement
- Engineered for durability and lasting structural performance
- Precision engineered for tight tolerance adjustments in assemblies
- Finished in silver for a modern, professional appearance
- Designed to simplify component alignment and calibration tasks
- Ensures repeatable results for accurate assembly adjustments

Product Code: SHIM16345

Specifications

Outdoor Use	No
Indoor Use	Yes
Hardware Included	No
Unit of Measure	Imperial
