

Description

Precision Brand Steel Shim in a Box 12"x120"x0.020" 1008 to 1010 Steel is a precise engineering component designed to offer adjustable shimming for accurate alignment in various trade applications. Made from 1008 to 1010 full hard steel, it provides consistent thickness and durability, ensuring reliable performance in tasks requiring meticulous spacing. The silver finish enhances its visual clarity during measurement and placement, while the Imperial unit of measure supports straightforward and effective use in practical settings.

Features

- Constructed from 1008 to 1010 full hard steel
- Compact and organised shim roll for precision adjustments
- Ideal for precise fitments using imperial measurements
- Crafted in silver finish for clear visual distinction
- Convenient box packaging simplifies storage and handling
- Reinforced design offers durability and robust performance
- Engineered for consistent shim thickness with precise dimensions
- Suitable for repeated adjustments without compromising component integrity

Product Code: SHIM16600

Specifications

Outdoor Use	No
Indoor Use	Yes
Hardware Included	No
Unit of Measure	Imperial

Appearance

Product Colour	Silver
