

Description

Carinya 100 x 75mm White Angle Bracket is a robust component constructed from powder coated steel, providing a reliable solution for angular support applications. It delivers precise alignment and secure fixing in various settings. The white finish offers a clean and professional appearance. Designed with practical use in mind, this angle bracket serves industrial and trade professionals by facilitating consistent performance and structural reinforcement in installations where durability and accuracy are essential.

Features

- Sized at 100 x 75mm for secure corner support
- Constructed from durable, powder coated steel
- Finished in white for high contrast visibility
- Precision engineered to provide accurate fixed corner integrity
- Ensures reliable and repeatable installation performance
- Robust design for long-lasting operational endurance
- Consistent dimensions for straightforward assembly
- Carinya quality built for dependable structural reliability
