

Description

Easyroll Load Moving Skates 6000kg are built with a robust steel frame and four durable nylon wheels that facilitate efficient heavy load movement. They offer precise and controlled handling of loads for professionals in trade and related sectors. The product's green and black finish ensures clear visual identification, while its reliable construction and smooth manoeuvrability enhance operational efficiency during daily transport and loading tasks. This design supports effective load management in various commercial work settings.

Features

- Robust steel frame construction supports high load capacity
- Durable nylon wheels provide smooth movement on varying surfaces
- Operable outdoors and indoors for reliable load shifting
- Four load wheels ensure secure balanced load distribution
- Green and black colour scheme offers clear visual identification
- Minimised friction design aids effortless load movement
- Sturdy construction supports heavy loads with precise manoeuvrability
- Simple design simplifies usage and maintenance of skates

Product Code: SKATE6TT

Specifications

Hardware Included	No
Outdoor Use	Yes
Indoor Use	Yes
Load Wheels	4

Appearance

Product Colour	Green/Black
----------------	-------------

Construction

Wheel Material	Nylon
Frame Material	Steel

Dimensions

Product Height (mm)	105
Product Width (mm)	195
Product Length (mm)	290
Wheel Size (mm)	80x70

Weights

Product Weight (grams)	13,280
Product Weight (kg)	13.28
Load Capacity kg	6000.0
