

Easyroll 100mm Polypropylene Wheel Plain Bearing 100kg

Description

Easyroll 100mm Polypropylene Wheel Plain Bearing 100kg provides a reliable solution for various transport and equipment repositioning tasks. It is constructed with a polypropylene wheel core, hub and outer wheel, combined with precision steel bearings for smooth rotation. The black design integrates durability with practical performance, offering efficient load handling and precision movement for trade professionals in both indoor and outdoor settings.

Features

- Durable polypropylene wheel core, wheel, hub construction
- Precision steel bearing ensures smooth rolling performance
- Designed for both outdoor and indoor applications
- 100mm size offers versatile compatibility and handling
- Rated for 100kg load supporting robust operational requirements
- Black finish suits diverse usage scenarios
- Engineered with precision bearing for reliable plain bearing movement
- Constructed with polypropylene for lightweight and resilient performance

Product Code: W00G100

Specifications

Bearing Type	Precision Bearing
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	No

Weights

Load Capacity kg	100.0
------------------	-------

Appearance

Product Colour	Black
----------------	-------

Construction

Wheel Core Material	Polypropylene
Wheel Material	Polypropylene
Bearing Material	Steel
Hub Material	Polypropylene

Dimensions

Tread Width	31
Axle Bore ID (F)	9.5
Wheel Width (C)	31
Wheel Diameter (A)	100

Weights

Product Weight (grams)	122
Product Weight (kg)	0.122
