

Description

Easyroll 200mm Grey Rubber Wheel Roller Bearing 200kg is an industrial wheel designed with a nylon core and robust rubber outer material that incorporates roller bearings made from steel and polyamide. It is engineered to support demanding tasks for industrial and trade professionals, offering reliable performance and durability. The wheel is suitable for both indoor and outdoor settings, providing stable support and precise manoeuvrability in various applications.

Features

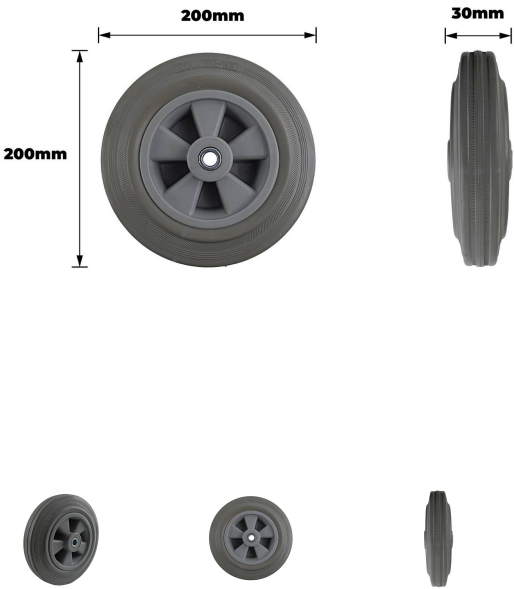

- 200mm diameter provides reliable operational performance
- Grey rubber wheel construction improves longevity and quiet operation
- Nylon wheel core and hub offer robust structural support
- Roller bearing design combines steel and polyamide for smooth rotation
- Operates reliably in indoor and outdoor environments
- Robust design supports heavy load up to 200kg capacity
- Precision engineered design minimises friction during operation
- Constructed with high performance materials for long lasting stability

Dimensions

Tread Width	30
Axle Bore ID (F)	12.2
Wheel Width (C)	46
Wheel Diameter (A)	200

Weights

Product Weight (grams)	1539
Product Weight (kg)	1.539

Product Code: W06R200

Specifications

Bearing Type	Roller Bearing
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	No

Weights

Load Capacity kg	200.0
------------------	-------

Appearance

Product Colour	Grey
----------------	------

Construction

Wheel Core Material	Nylon
Wheel Material	Rubber
Bearing Material	Steel/Polyamide
Hub Material	Nylon
