

Easyroll 100mm Cast Iron Wheel Plain Bearing 225kg

Description

Easyroll 100mm Cast Iron Wheel Plain Bearing 225kg is engineered for professional use in industrial and trade scenarios. It features a robust cast iron wheel with a cast iron core and hub, coupled with a steel plain bearing that delivers consistent and reliable rolling performance. Suitable for both indoor and outdoor applications, this product integrates essential hardware to support straightforward installation and upkeep, offering practical mobility solutions for demanding technical operations.

Features

- Robust cast iron wheel ensures long-lasting durability
- Plain bearing design provides smooth mobility operation
- High quality steel bearing supports heavy load performance
- Cast iron core and hub add structural strength
- Suitable for indoor and outdoor applications
- Hardware provided for complete wheel assembly
- Easyroll manufacturing delivers dependable operation and longevity
- Engineered for high load capacity in demanding use

Product Code: W16G100

Specifications

Bearing Type	Plain Bearing
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	Yes

Weights

Load Capacity kg	225.0
------------------	-------

Appearance

Product Colour	Silver
----------------	--------

Construction

Wheel Core Material	Cast Iron
Wheel Material	Cast Iron
Bearing Material	Steel
Hub Material	Cast Iron

Dimensions

Tread Width	33.5
Axle Bore ID (F)	16
Wheel Width (C)	33
Wheel Diameter (A)	101
