

Easyroll 75mm Cast Iron Wheel Plain Bearing 115kg

Description

Easyroll 75mm Cast Iron Wheel Plain Bearing 115kg is engineered to provide a reliable, robust solution for transport and load handling applications. The cast iron wheel core, paired with a nylon wheel and cast iron hub, offers consistent performance. Steel plain bearings deliver smooth rotation while the included hardware facilitates straightforward installation. Designed for both indoor and outdoor use, it addresses the practical requirements of trade professionals with a focus on durability and controlled load management.

Features

- 75mm diameter ensures precise fitting
- Rated for a 115kg load capacity
- Cast iron core and hub provide robust strength
- Nylon wheel material reduces friction and wear
- Plain bearing built with durable steel
- Hardware package supports straightforward installation
- Silver finish enhances clear component visibility
- Versatile design accommodates multiple installation scenarios

Product Code: W16G75

Specifications

Bearing Type	Plain Bearing
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	Yes

Weights

Load Capacity kg	115.0
------------------	-------

Appearance

Product Colour	Silver
----------------	--------

Construction

Wheel Core Material	Cast Iron
Wheel Material	Nylon
Bearing Material	Steel
Hub Material	Cast Iron

Dimensions

Tread Width	28
Axle Bore ID (F)	14.4
Wheel Width (C)	28
Wheel Diameter (A)	75

Weights

Product Weight (grams)	429
Product Weight (kg)	0.429
