

Easyroll 250mm Urethane Wheel Precision Bearing 1500kg

Description

Easyroll 250mm Urethane Wheel Precision Bearing 1500kg is engineered for precise performance in demanding trade applications. It features a carbon wheel core, carbon hub, and double precision carbon bearing within a polyurethane heavy duty wheel. Designed for both outdoor and indoor use, its robust construction and efficient design support smooth mobility and consistent operation. The technical attributes offer reliable handling and effective load distribution, making it a practical solution for professional use.

Features

- Red polyurethane wheel with a carbon core design
- Double precision carbon bearings for reliable execution
- Heavy duty construction supports elevated 1500kg load capacity
- Carbon hub ensures stability and corrosion resistance
- Ply rating 2 enhances durability under pressure
- Suitable for both outdoor and indoor operations
- Engineered for smooth rolling and precise manoeuvring
- Easyroll quality delivers dependable performance in heavy load tasks

Product Code: W250-PT2A

Specifications

Bearing Type	Double Precision Bearing
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	No

Weights

Load Capacity kg	1500.0
------------------	--------

Appearance

Product Colour	Red
----------------	-----

Construction

Wheel Core Material	Carbon
Wheel Material	Polyurethane
Bearing Material	Carbon
Hub Material	Carbon

Dimensions

Tread Width	51
Axle Bore ID (F)	12.5
Wheel Width (C)	51
Wheel Diameter (A)	250

Weights

Product Weight (grams)	4000
Product Weight (kg)	4
