

Description

Easyroll 150mm Grey Rubber Wheel Precision Bearing 130kg is built with a polypropylene core and hub, a rubber wheel and precision steel bearings to provide reliable and controlled movement. It is designed for indoor settings where medical wheels are required to offer dependable mobility solutions for trade professionals. The robust combination of materials and inclusion of hardware facilitates straightforward installation and effective operation in various controlled environments.

Features

- Easyroll branded medical wheels with precision steel bearings
- Durable polypropylene wheel core and hub construction
- High grip rubber wheel material for smooth movement
- Precision bearings ensure reliable rotational performance
- Integrated hardware included for straightforward installation
- Designed for indoor use with practical technical design
- Wheel colour grey for a professional unobtrusive look
- Engineered for precision without compromising durability or performance

Product Code: W44K150

Specifications

Bearing Type	Precision Bearing
Outdoor Use	No
Indoor Use	Yes
Hardware Included	Yes

Weights

Load Capacity kg	120.0
------------------	-------

Appearance

Product Colour	Grey
----------------	------

Construction

Wheel Core Material	Polypropylene
Wheel Material	Rubber
Bearing Material	Steel
Hub Material	Polypropylene

Dimensions

Tread Width	30
Axle Bore ID (F)	8
Wheel Width (C)	32
Wheel Diameter (A)	150

Weights

Product Weight (grams)	374
Product Weight (kg)	0.373
