

Easyroll 75mm Urethane Wheel Precision Bearing 80kg

Description

Easyroll 75mm Urethane Wheel Precision Bearing 80kg is a stainless steel wheel system engineered for precise load management and smooth movement. The product incorporates a polyurethane wheel with a polypropylene core and stainless steel ball bearings, offering reliable performance for trade professionals. Featuring a clean silver, black and grey finish, it provides consistent motion and stability across varied applications, and all necessary hardware is included to ensure straightforward installation and use.

Features

- Urethane wheel with stainless steel ball bearing ensures precision rolling
- Polyurethane composition offers robust performance under substantial load
- Polypropylene core provides a lightweight yet sturdy structure
- Stainless steel bearings reduce friction for improved efficiency and manoeuvrability
- Versatile design suits both outdoor and indoor applications
- Included hardware ensures straightforward installation and immediate use
- Polypropylene hub adds resilience with shock absorption properties
- Precisely engineered components support dependable and controlled performance

Product Code: W63K75SS

Specifications

Bearing Type	Ball Bearing
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	Yes

Weights

Load Capacity kg	80.0
------------------	------

Appearance

Product Colour	Silver/Black/Grey
----------------	-------------------

Construction

Wheel Core Material	Polypropylene
Wheel Material	Polyurethane
Bearing Material	Stainless Steel
Hub Material	Polypropylene

Dimensions

Tread Width	32
Axle Bore ID (F)	8.4
Wheel Width (C)	32
Wheel Diameter (A)	75
