

Easyroll 125mm Cast Iron Wheel Precision Bearing 500kg

Description

Easyroll 125mm Cast Iron Wheel Precision Bearing 500kg is a robust heavy duty wheel designed for both indoor and outdoor use by industrial and trade professionals.

Constructed entirely from cast iron with a precision carbon bearing, it maximises performance for demanding operational tasks by offering reliable support and precise mobility. Its simple yet efficient design provides technical advantages in consistent loading capacity and extended durability, making it a practical solution for various mobile applications.

Features

- Cast iron wheel and hub ensure strong lasting performance
- Precision carbon bearing delivers smooth rotational movement
- 125mm wheel diameter supports high weight capacity
- Heavy duty design offers reliable operational stability
- Cast iron materials provide a robust construction
- Precision bearings allow accurate controlled wheel rotation
- Black finish offers easy identification in various applications
- Engineered for both outdoor and indoor use

Product Code: W82K125

Specifications

Bearing Type	Precision Bearing
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	No

Weights

Load Capacity kg	500.0
------------------	-------

Appearance

Product Colour	Black
----------------	-------

Construction

Wheel Core Material	Cast Iron
Wheel Material	Cast Iron
Bearing Material	Carbon
Hub Material	Cast Iron

Dimensions

Tread Width	50.5
Axle Bore ID (F)	12.2
Wheel Width (C)	50
Wheel Diameter (A)	125

Weights

Product Weight (grams)	1839
Product Weight (kg)	1.839
