

Easyroll 150mm Cast Iron Wheel Precision Bearing 550kg

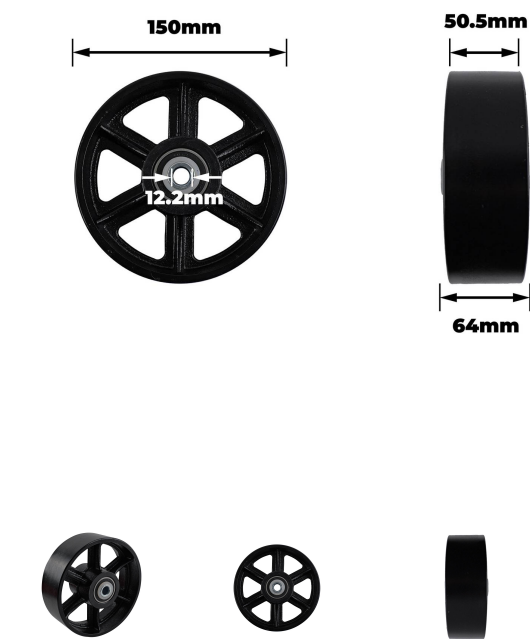

Description

Easyroll 150mm Cast Iron Wheel Precision Bearing 550kg is designed for efficient material handling applications. Constructed entirely from cast iron with a precision carbon bearing, this heavy duty wheel delivers reliable performance for trade professionals in both indoor and outdoor settings. The robust wheel core and hub ensure smooth, consistent movement while its practical design optimises operational reliability and ease of deployment in demanding work environments.

Features

- Precision carbon bearing reduces friction for smooth movement
- Cast iron wheel provides robust durability for heavy duty applications
- High load capacity rated at 550kg for demanding tasks
- Suitable for both indoor and outdoor use
- Precision bearing design assures reliable rotational performance
- Heavy duty construction withstands prolonged rigorous use
- Consistent smooth movement with minimal friction losses
- Manufactured using high quality durable cast iron components

Product Code: W82K150

Specifications

Bearing Type	Precision Bearing
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	No

Weights

Load Capacity kg	550.0
------------------	-------

Appearance

Product Colour	Black
----------------	-------

Construction

Wheel Core Material	Cast Iron
Wheel Material	Cast Iron
Bearing Material	Carbon
Hub Material	Cast Iron

Dimensions

Tread Width	50.5
Axle Bore ID (F)	12.2
Wheel Width (C)	50
Wheel Diameter (A)	150

Weights

Product Weight (grams)	2116
Product Weight (kg)	2.116
