

Easyroll 100mm Urethane Wheel Precision Bearing 280kg

Description

Easyroll 100mm Urethane Wheel Precision Bearing 280kg is a robust heavy duty wheel designed for precision performance in trade applications. Constructed with a polyurethane wheel and precision carbon bearings, it provides reliable manoeuvrability and durability. The polypropylene hub and core contribute to a resilient design suitable for both indoor and outdoor use. Expertly engineered for consistency, this wheel meets the rigorous demands of professionals, ensuring dependable and efficient operation across a variety of applications.

Features

- 100mm urethane wheel with precision bearing design
- Supports carrying loads up to 280kg
- Constructed with durable polyurethane surface and polypropylene hub
- Precision carbon bearings ensure smooth, reliable rotation
- Engineered for both indoor and outdoor use
- Robust heavy duty construction for demanding workloads
- Elegant black and red finish with modern design
- Low maintenance design providing long-lasting dependable performance

Product Code: W84K100

Specifications

Bearing Type	Precision Bearing
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	No

Weights

Load Capacity kg	280.0
------------------	-------

Appearance

Product Colour	Black/Red
----------------	-----------

Construction

Wheel Core Material	Polypropylene
Wheel Material	Polyurethane
Bearing Material	Carbon
Hub Material	Polypropylene

Dimensions

Tread Width	43
Axle Bore ID (F)	12.2
Wheel Width (C)	50
Wheel Diameter (A)	100

Weights

Product Weight (grams)	518
Product Weight (kg)	0.518
