

Easyroll 200mm Urethane Wheel Precision Bearing 2000kg

Description

Easyroll 200mm Urethane Wheel Precision Bearing 2000kg is a robust solution engineered for precision rolling applications. Manufactured by Colson, the X1 Series Castors utilise a cast iron wheel core and hub paired with polyurethane wheels and precision steel bearings, ensuring smooth motion and reliable load handling. This design optimises mobility for trade professionals requiring steady, accurate transport in diverse operational settings.

Features

- Robust cast iron wheel core and hub deliver high durability
- Precision steel bearings ensure smooth roll performance
- High performance polyurethane wheel offers long wear life
- Engineered for heavy duty load capacity up to 2000kg
- Dual-colour yellow black design aids easy visual identification
- Suitable for outdoor and indoor applications for operational flexibility
- Precision bearing alignment simplifies maintenance and variable deployment
- Engineered design supports continuous operation and reduced maintenance

Product Code: W91K200

Specifications

Bearing Type	Precision Bearing
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	No

Weights

Load Capacity kg	1810.0
------------------	--------

Appearance

Product Colour	Yellow/Black
----------------	--------------

Construction

Wheel Core Material	Cast Iron
Wheel Material	Polyurethane
Bearing Material	Steel
Hub Material	Cast Iron

Dimensions

Tread Width	76.2
Axle Bore ID (F)	19
Wheel Width (C)	76.2
Wheel Diameter (A)	200

Weights

Product Weight (grams)	8.2
Product Weight (kg)	0.0082
