

Easyroll 250mm Urethane Wheel Precision Bearing 2000kg

Description

Easyroll 250mm Urethane Wheel Precision Bearing 2000kg is a Colson X1 Series Castors unit in yellow/black designed for efficient load transport. Its cast iron wheel core and hub provide structural stability while the polyurethane wheel ensures smooth movement over various surfaces. Precision steel bearings offer consistent rotating performance. The castors include comprehensive hardware and support indoor and outdoor applications, presenting technical advantages that cater to trade professionals seeking reliable and effective load mobility solutions.

Features

- Cast iron wheel core enhances structural strength
- Heavy duty polyurethane wheel sustains demanding operational loads
- Precision steel bearing enables smooth, accurate movement
- Cast iron hub supports robust mechanical integration
- Hardware packaged for immediate installation
- Yellow/black finish improves overall visibility
- High load capacity rated for 2000kg operational performance
- Designed for long service with precision engineering components

Product Code: W91K250

Specifications

Bearing Type	Precision Bearing
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	Yes

Weights

Load Capacity kg	1905.0
------------------	--------

Appearance

Product Colour	Yellow/Black
----------------	--------------

Construction

Wheel Core Material	Cast Iron
Wheel Material	Polyurethane
Bearing Material	Steel
Hub Material	Cast Iron

Dimensions

Tread Width	76.2
Axle Bore ID (F)	19
Wheel Width (C)	76.2
Wheel Diameter (A)	250

Weights

Product Weight (grams)	10.3
Product Weight (kg)	0.0103
